

We founded FiliNi Collection based on our common passion for fashion and trends. The inspiration for our collections comes from the travels we make to places all over the world. Our aim is to create a lifestyle jewelry brand that represents our passion for beauty and to pass on this passion to others with our designs.

The philosophy of FiliNi Collection is to offer trendy, elegant, exceptional and affordable but yet high quality lifestyle jewelry, as well as sophisticated accessories. We believe that you, with help of our selected products, can transform every outfit into a suitable one for any occasion.

Since Nina got married in 2013 and Filippa has worked as a stylist & wedding planner the idea of also creating a special wedding collection came up. Beautiful pieces that are elegant, timeless and romantic – ideal to combine with your plain wedding dress.

The wedding day is a unique & unforgettable occasion and we hope that with our unique jewelry pieces from the wedding collection we can even make you radiate and shine a little bit more.

Your FiliNi Team, Filippa & Nina
